## ABOUT ME:

Mr. Johnson is responsible for completion of construction documents and has over 8 years of architectural design experience, including a wide range of building types encompassing correctional, health care, office buildings, and retail centers. He is proficient in the use of 2D and 3D Mediums to allow the end user to get a better idea of the final product. His specialties include ADA accessibility studies/remediation, Project Coordination, and Client Interaction. He has completed numerous programming, planning and operational projects, working with key senior staff on the programming, planning and implementation.
